

$$7 + 7 + 7 = 21$$

($21 / 3 = 7$) ($21 / 3 = 7$) ($21 / 3 = 7$)

$$6 + 6 + 7 = 19$$

($(19 - 7) / 2 = 6$) ($(19 - 7) / 2 = 6$)

$$2 + 6 + 7 = 15$$

($15 - 7 - 6 = 2$)

是乘，不是加哦！

$$5 + 4 \times 1 = 9$$

($7 - 2 = 5$) ($2 + 2 = 4$) ($6 - 5 = 1$)
